- Extended Warranty Contracts
- Service Contracts
- Training

This Flexible Manufacturing System includes seven Giddings & Lewis machining and turning centers, robotic deburring, automated parts washing and laser guided vehicles - all under the control of an executive computer. The system currently processes eight different parts families (including 50 different parts) ranging in cube size from 6" to 36"

Improve Productivity Products and Services.

Precision Glass Fabrication

The Largest Lapping & Polishing Machines on the North American Continent!

FOR THE BIOTECH, ELECTRONICS, AEROSPACE, MILITARY INDUSTRIAL, MEDICAL AND GENERAL COMMODITY INDUSTRIES
 All types of glass, quartz and sapphire including conductive coated materials, electrophoresis (gel plates), all types of substrates, memory disks, and wafers.

- Slicing
- Custom Cutting
- Machining
- Blanchard Grinding
- Flatness Inspection
- Core Drilling
- Sandblasting
- 76" Double-Sided Lapping
- 76" Double-Sided Polishing
- OD and ID Grinding

Glegg Water Conditioning, Inc.

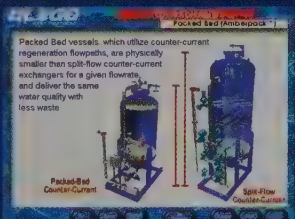

Industrial Water Made Easy

A revolutionary new way to buy pure water systems

The industry's first true reference design system, GRD2000™ is a revolutionary new way of designing, specifying and building pure water systems. The GRD2000 Toolset™ – available free on CD-ROM – gives you all the process and technical information to design your system with total confidence, assuring you a comprehensive and error-free specification.

Hit the ground running with an interactive educator module and use the "point & click" specifier module to generate comprehensive specifications quickly and easily. The real power behind GRD2000™ is Glegg's 3D parametric design technology – innovative proprietary software that enables us to generate dozens of interrelated, detailed and accurate drawings for your project.

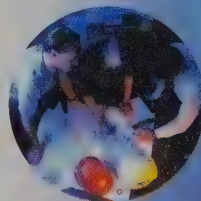

Browse through 32 tutorials and a 1,000 page design guide

At Glegg, we build pure water systems for industry. That's our only focus. During the past 20 years, we've built more than one thousand systems – delivering innovative, cost-effective, reliable pure water solutions for leading industrial and engineering companies worldwide.

From our 1 to 200 gpm Drake Modular Systems, to large 5000 gpm turnkey systems, Glegg meets the needs of a broad range of industrial applications. From sanitary USP 23 validated pure water systems for the pharmaceutical industry, to ultra-pure systems for semiconductor wafer cleaning, to a full range of boiler feed water applications, world leaders across a wide range of industries trust their water applications to Glegg.

By forging partnerships with the industry's technology leaders and leveraging our own in-house expertise, Glegg R&D is breaking new ground in water purification technology – reducing chemical use and facility infrastructure requirements and simplifying existing processes.

Today, Glegg is applying these new technologies to produce water of the highest purity for industrial applications. With leading-edge technologies like E-Cell™ and Amberpack™, our industry-leading capability enables us to continually develop new ways that make buying a pure water system easier than ever before.

Innovation in X-ray inspection Glenbrook Technologies

Glenbrook is the foremost innovator in real-time X-ray inspection technology for the electronics assembly industry and other manufacturers. Our systems support quality assurance and process control, with installations in more than 25 countries worldwide.

- Manufacturers of SMT assemblies use Glenbrook systems to evaluate solder joint integrity for BGAs and other advanced, leadless packages.
- Glenbrook systems enable fabricators of multi-layer PCBs to enhance product quality and control costs.
- Medical device manufacturers employ Glenbrook systems for 100% inspection of sealed and injection molded products.

We invite you to find your X-ray inspection solution at Glenbrook, where innovation drives market leadership.

For more information: check out our catalog pages, website homepage and our ads in: X-ray Apparatus, X-ray Equipment - Portable, X-ray Inspection.

CUSTOM METAL SPINNING BY GLENN METALCRAFT, INC.

METALFORMING CHALLENGES?

Glenn Metalcraft Spins Solutions.

From prototype to production, GLENN METALCRAFT can accomplish what would otherwise require a series of dies and drawing operations. Our complete in-house secondary operations include punching, bending, trimming, flaring, welding and heat treating—for single-source assurance of quality and on-time delivery.

So name your challenge. And join the growing list of satisfied customers nationwide and abroad who have found metal forming solutions at GLENN METALCRAFT.

- 104" SWING
- 1/4" STEEL, .375 ALUMINUM
- HIGH-SPEED CNC SPINNING
- COMPUTER-AIDED QUALITY CONTROL
- COMPLETE TOOLING FACILITIES
- ALL PRECIOUS METALS SPUN
- ON-SITE SECONDARY OPERATIONS

Metals and Materials for research and industry

Small quantities fast

Outstanding selection

Pure metals and alloys

- 69 pure metals
- more than 230 alloys
- over 110 compounds

Polymers, ceramics, composites and honeycombs

Wide range of forms

Foils — from conventional thicknesses to 0.000001 mm pure metal microfoils!

Also — sheets, wires, rods, tubes, powders, crystals, fibers and fabric

Small quantities a specialty

Order as little as one piece, one square inch, one gram ...anything up to small production quantities.

Fast delivery

All items are in stock, ready for immediate shipment.

Custom services

Goodfellow can help you with single prototypes or small production runs using a wide variety of equipment, materials and techniques.

See our ad for gasketing materials under Gaskets in the Product Services Section, and our catalog in the Catalog Section.

The gasketing and packing products of the Sealant Technologies Group at W. L. Gore & Associates, Inc. are today's best alternatives to asbestos fluid-sealing products. The gasketing products are made from unique, patented GORE-TEX® expanded PTFE. Unlike products made from any other form of PTFE, these products have dramatically reduced creep and cold flow. They tolerate temperatures between -450°F (-268°C) and +600°F (+315°C), withstand internal pressures from full vacuum to 3,000 psig (200 bar), and are unaffected by chemicals over the entire 0-14 pH range. Compression packings made from 100% GFO® fiber or GORE-TEX® fiber are unsurpassed as high-performance asbestos packing replacements. New, all-white SEQUEL® packing is equally effective, meets FDA requirements, and is ideal for color-sensitive environments.

Other proprietary PTFE products are constantly being developed to meet demanding sealing requirements in many industries. Look to Gore for high-performance, high-technology sealing products.

GORE-TEX, GORE-TEX GR, GORE BG, GFO, ONE-UP, and SEQUEL are trademarks of W. L. Gore & Associates, Inc.

DIVISION OF THE GORMAN - RUPP COMPANY

The Quality Source of PUMPS

INDUSTRIES & MARKETS SERVED

Primarily OEM, Photographic/Image Reproduction, Food & Beverage, Scientific/Analytical, General Industry

PUMPS TYPES

- Bellows Metering Pumps (STD, Compact and Mini)
- Bellows Transfer Pumps
- Centrifugal Pumps
- Magnetic Driven Centrifugal Pumps
- Oscillating Pumps
- Peristaltic Pumps

PERFORMANCE RANGE

- Size Range: 4mm to 1-3/8"
- GPM Range: 50 ml to 60 GPM
- TDH Range: up to 84 ft
- Solids Handling: No Solids

Gould...Innovation and Quality in Electronics

CAC

34929-T Curtis Blvd., Eastlake Ohio 44095
Telephone (440) 953-5000 Fax: (440) 953-5001
E-Mail: rsavage@gouldelectronics.com
Gould manufactures Copper-Aluminum-Copper CAC® laminated foil used in the printed circuit board industry

Electronic Materials

34929-T Curtis Blvd., Eastlake Ohio 44095
Telephone (440) 953-5000 Fax: (440) 953-5001
E-Mail: cdusseau@gouldelectronics.com
Gould produces GOULD®flex adhesiveless flexible laminate material for flexible printed circuit boards, and other PCBs requiring ultra thin copper and substrates. Gould also produces specialty electrodeposited coatings of tin, nickel and copper on copper foils and CIC for the electronics market for shielding, fuses, and circuit boards

Powerdex

34099 Melinz Parkway, Eastlake Ohio 44095
Telephone (440) 918-6060 Fax: (440) 918-6030
Gould manufactures ultra thin, flat, high energy lithium batteries

Fiber Optics

1121-T Benfield Blvd., Millersville, Maryland 21108
Telephone (410) 987-5600 Fax: (410) 987-1201
TOLL FREE: 800-544-6853
Gould manufactures fiber optic couplers

Foil

34929-T Curtis Blvd., Eastlake Ohio 44095
Telephone (440) 953-5000 Fax: (440) 953-5174
E-Mail: mbacnik@gouldelectronics.com
Gould produces electrodeposited copper foil used in the manufacture of printed circuit boards.

The first name in fiber optic couplers

GOULD

Fiber Optics

Fast Delivery on a Variety of Customized Components.

Gould's specifications meet the needs of the Telecommunications, CATV, Instrumentation and Research Markets

Get singlemode or multimode components with low insertion loss and high directivity

- Couplers/Splitters
- Wavelength Independent Couplers
- Low Polarization Tap Couplers
- Specialized Packaging and Subsystem Assemblies
- Trees and Stars
- Low Reflection Terminations
- Polarization Maintaining Couplers
- Planar Waveguides
- 980/1550 Wavelength Division Multiplexers
- Wavelength Division Multiplexers
- Fixed & Variable Attenuators

Guaranteed for environmental stability and performance, Gould components come in a variety of standard and customized package styles.

GRACE Davison

ENHANCING PERFORMANCE WITH SPECIALTY CHEMICALS

Products

- Fluid cracking catalysts and additives
- Hydroprocessing catalyst
- Silica products
- Polyolefin and chemical catalysts and carriers
- Zeolite adsorbents

Market Segments/End Users

- Petroleum refining for transportation fuels and petrochemicals
- Plastic resins for plastic films, gas distribution pipes and molded plastic products
- Coatings
- Personal Care Products
- Pharmaceuticals
- Building Products
- Chemical Products
- Chromatography
- Electronics
- Natural Gas/Industrial Processes
- Food/Beverage
- Paper & Printing Applications
- Packaging (Desiccants)

Grace Davison is a major global supplier of silica and molecular sieve products for the coatings, pharmaceuticals, personal care, food, plastics, electronics, petrochemical, building, and natural gas/industrial processes markets. It also is a leading worldwide supplier of catalysts and additives to the oil refining, plastics, and chemical industries.

With manufacturing sites, research and development centers, and sales offices worldwide, Grace Davison maintains a leading position as a world-class supplier of high-technology specialty chemicals.

ISO 9002 REGISTERED

Contract Manufacturing of Precision Metal Parts Through Innovative Manufacturing

- Photochemical Machining
- Production Wire EDM
- Production Laser Cutting
- Support Capabilities
 - Conventional Machining
 - Stamping
 - Forming
 - Grinding
 - Laser Welding
 - Laser Marking
 - Metal Finishing
 - Photographic Tooling
 - Product Design

Website www.gracemfg.com

For over 30 years, Grace Manufacturing has supplied precision metal parts to industries world-wide. Utilizing our in-house tooling and state-of-the-art photochemical machining, laser cutting and wire EDM facilities, we produce clean, burr-free, stress-free, strain-free metal parts with thicknesses of .001 inches to heavy gauge. We will prototype and manufacture in quantity to an exacting level of precision.

Serving the Medical, Electronic, Automotive, Aviation and Printer Components industries with integrity and innovation for over 30 years.

**W.C. GRANT COMPANY, INC.
DESIGNERS ENGINEERS**

- Washing and Cleaning Machinery
- Air Make-Up Systems
- Industrial Ovens and Furnaces
- Paint Finishing Systems (Liquid or Powder)

SINCE 1944 we have developed standard and
custom machines and systems that are labor sav-
ing, energy efficient and cost effective. On-site or
in-plant projects are engineered with your space
and time requirements, available power sources,
and design specifications in mind.

• LABELS • DECALS • NAMEPLATES •

Tri Manufacturing, Inc. (TMI), dba Graphic Techniques, South since 1992, began supplying labels in 1987. TMI began by providing labels to original equipment manufacturers and extended its product line as GTS to include screen-printed signs, screen printing of machinery parts, the roll label business, drafting services, and commercial art. Our customers range from Fortune 500 companies to individuals.

Products:

- screen printed labels
- decals
- nameplates
- computer cut Vinyl graphics
- magnets
- vehicle door signs
- machine parts
- plastic parts
- labels that carry electrical current.

Substrates:

- Vinyl
- Polycarbonate (Lexan)
- Polyester (Mylar)
- static cling
- metal (premachined and anodized plated, aluminum, stainless steel)
- paper, magnetic stock.

Art and design services in-house. Electronic Data Information (EDI) Import and Export (pos, invoices, wire transfers, art, designs). Our graphics department has both Macintosh and IBM compatible programs. Many products start as a prototype in conjunction with the buyer and the engineer designing the product.

GTS is a 3M converter and approved UL supplier.

(Designers & Mfrs. Of Specialized Material Handling Transporters, Systems & Ergonomic Equipment. The Transporter Div. Produces Mold & Die Changing & Handling Vehicles & Systems For Tooling Weighing 500 Lbs. To 200,000 Lbs.; The Ergonomic Products Div. Produces Products For Optimum Load &/Or Personnel Positioning For Minimal Operator Exposure To Injury From Reaching, Twisting, Bending, Lifting. Products Include: Lift Tables, Operator Platforms, Tilt Tables, Turntables, Dollies, Carts, High Density Mold/Die Storage, Conveying Systems & Custom Systems)

DIE... MOLD HANDLING EQUIPMENT

SHOWN: MOLD \ DIE TRANSPORTER 100,000 LB. CAPACITY

Options Include:
POWERED... Lift,
Drive, Push On/Off,
Wheeled, Air Film,
Rail or Dedicated Systems.

Units to 200,000 Lb. Capacity and MORE!

OPERATOR LIFT PLATFORMS

AND OTHER ERGONOMIC AND INTEGRATED SYSTEMS

WANT TO REDUCE WORKER INJURY COSTS?

LET GREEN VALLEY INC. PROVIDE YOUR COMPANY WITH THE LATEST IN PERSONNEL LIFT PLATFORMS. DESIGNED TO VERTICALLY ADJUST WORKERS TO AN ERGONOMIC HEIGHT. LESS INJURIES, MORE PRODUCTIVITY BETTER PROFITS.

GREAT FOR ASSEMBLY LINE, WORK CELL APPLICATIONS LENGTHS TO 30'; WIDTHS TO 10' AND MORE STANDARD DOWN HGT. LOW AS 6"

SIZES & CAPACITIES TO FIT YOUR NEEDS. SELF CONTAINED, UNDER DECK POWER UNIT

Cost-effective Solutions by Combining Our Expertise

Dekko Technical Center

11913 E 450S
LaOtto, Indiana 46763
219-637-3964 Fax 219-637-5641

A2LA Accredited laboratory providing advanced analytical and testing services for product development, product enhancement, problem solving and quality assurance.

Capabilities:

- Material Science Lab
- Environmental Simulation
- Metrology Lab
- Electrical Testing
- UL Testing
- Terminal Testing.

Dekko Stamping

1321 E. Wallace Street
Fort Wayne, IN 46803
219-456-3120 Fax 219-744-3243

Designers and manufacturers of precision light metal stampings for the office furniture, appliance and automotive industries

Capabilities:

- Wide variety of stampings
- Prototyping
- Electrical and industrial engineering
- In-house tool shop

Dekko Engineering - Pent Manufacturing

2700 County Road 75
Butler, IN 46763
219-868-5888 Fax 219-868-5027

Manufacturer of electrical assemblies and components dedicated to supplying Knoll.

Capabilities:

- Electrical harnesses for office furniture panels
- Metal & plastic components assembly

Dekko Automotive Technologies

3330 West McLane
Osceola, IA 50213
515-342-6559 Fax 515-342-3110

Designers and manufacturers of wiring harnesses for the automotive and transportation industries.

Capabilities:

- Prototyping
- Requirements planning
- EDI
- Electrical and industrial engineering

Dekko Heating Technologies

8659 East Backwater Road
North Webster, Indiana 46555
219-834-2818 Fax 219-834-2794

Designers and manufacturers of electrical heating elements, PTC heaters and heater wire.

Capabilities:

- Rope, foil, tubular, injection-molded polymer thick film and PTC heating elements
- Cold-end and multi-wattage heater wire, resistance alloy drawing and ignition wire winding and coating.

Dekko Engineering - Pent Division

6928N-400E
Kendallville, IN 46755
219-347-0700 Fax 219-347-8200

Designers and manufacturers of power management systems for the office furniture and commercial construction industries.

Capabilities:

- Receptacles
- 8 and 10 wire systems (UL 1286 and UL 183)
- UHI & Front access 6 wire systems
- Ultra power system (surface mounted electrical power taps)
- VersaCable (modular premanufactured data and telephone system)

Custom Lights

1605 Dekko Drive
Garrett, Indiana 46738
219-357-5988 Fax 219-357-3399

Designers and manufacturers of task lighting.

Capabilities:

- Current non-proprietary product line includes LP Series 70 and CLII Task Lights; both UL & CSA certified
- Complete engineering and design support

Group Dekko Provides
Product Design &
Manufacturing Expertise

Cost-effective Solutions by Combining Our Expertise

Garrett Products

1605 Dekko Drive
Garrett, Indiana 46738
219-357-5988 Fax 219-357-3399

Designers and fabricators of metal components for appliance, automotive and office furniture industries.

Capabilities:

- Pre-painted, galvanized and cold rolled metals
- Powder coating with extensive color capabilities
- Assembly
- Engineering and design support

Lyall Assemblies

St. Rd. 9 & 400 S
Albion, Indiana 46701
219-636-2551 Fax 219-636-3139

Designers and manufacturers of power cords, wiring harnesses and custom connectors.

Capabilities:

- Power cord, wire harness and custom connector design & manufacture
- On-site UL and CSA approved lab for product testing
- Complete SPC program

Pent Assemblies

6928N - 400E
Kendallville, Indiana 46755
219-347-5828 Fax 219-347-2028

Manufacturer of electrical assemblies and components dedicated to supplying Herman Miller and Miller SQA.

Capabilities:

- Electrical harnesses for office furniture panels
- Metal & plastic components assembly
- Large part plastic molding

Pent Assemblies-Custom Molding Division

300 Dekko Drive
Avilla, IN 46701
219-897-3459 Fax 219-897-3514

Designers and manufacturers of large part plastic molding components for the office furniture industry.

Capabilities:

- Large part plastic molding and assembly
- Machine sizes from 500 to 1200 ton

Group Dekko has more than 50 operating facilities in North America, Canada and Mexico.

Pent Plastics

303 East Fourth Street
Avilla, Indiana 46710
219-897-3775 Fax 219-897-2582

Designer, manufacturer, and assembler of plastic components and systems.

Capabilities:

- Insert molding & injection molding
- Molding machine sizes from 40 to 400 ton
- Assembly
- Equipped for high-volume, short run and efficient color changes

Pent Products

6928N - 400E
Kendallville, Indiana 46755
219-347-5831 Fax 219-347-8011

Manufacturer of electrical assemblies and components dedicated to Steelcase and Steelcase affiliated companies.

Capabilities:

- Metal fabrication
- Metal and plastic parts assembly

PVC Compounders

6928N - 400E
Kendallville, Indiana 46755
219-347-4055 Fax 219-347-4082

Manufacturer of PVC compounds for use by the wire and cable industry in molding and extrusion applications.

Capabilities:

- Flexible PVC compounds
- Custom formulating and color matching
- State-of-the-art high intensity mixing system
- Single and twin-screw extrusion technologies

Group Dekko

(Modular Multi-Axis Gantry Mechanical Systems—Custom, Cantilever & Telescopic Modules, Linear Motion Elements Equipped With Integrated Guideway/Rack, Adjustable Backlash Sealed For Life Precision Worm Gearboxes With Integrated Drive Pinions. Made In U.S.A.)

MODULAR SOLUTION FOR LINEAR TECHNOLOGY

APPLICATIONS INCLUDE:

- Material handling
- Area and line gantries
- Assembly, process, and pick and place applications
- Welding — painting, routing and engraving robots
- Laser, waterjet and plasma cutting other process machines
- Wood and sheet metal machines

Güdel has built a reputation as a reliable supplier of high technology linear axes modules. Our modular axes are based upon a proven integrated guideway and rack system, prismatic and cylindrical rollers, accurate and highly dynamic transmission modules.

- Established in 1954
- Facilities in North America, Europe, Asia
- Engineering, Manufacturing, Customer Service from Michigan facility

BEFORE YOU INVEST... CONSIDER THE BEST

RELIABILITY. AFFORDABILITY. QUALITY. ACCURACY.

A total value commitment comes standard with Atlantic and HACO equipment. One of the finest machine tools built in the world.

The machine tool industry has been a rapidly changing marketplace over the last ten years. New global leaders with new world class technology have emerged in the 90's. We are dedicated not only to bringing the best of those products to you, but also providing responsible service by qualified technicians and providing turnarounds on replacement parts to assure minimum downtime.

Our continuing efforts to maintain a low operating overhead enables us to supply quality service and machinery at a fair and cost effective price.

Experienced Sales, Service, & Technical Support
Serving Industry Since 1964

(H-B INSTRUMENT CO.—Continued on page 1782)

With H.B. Fuller
Company, you get
quality products.

And
great
chemistry.

When you look to H.B. Fuller to meet your specialty chemical needs, you get more than great products. You also get great chemistry.

Our sales representatives and technical experts work so closely with you to understand your business and your needs, that you'll consider them an extension of your staff.

After we identify and formulate solutions that meet your needs, we'll still be there to help you with training. Installation. Operating tips. And all the on-site and on-call support you need to get the job done right.

And, of course, all H.B. FULLER® products — including adhesives, sealants, coatings, and paints — set industry standards for performance, reliability and value. They help satisfy today's ever-tightening environmental

regulations. And they help manufacturers like you — in more than 100 countries worldwide — enhance products, improve productivity and boost bottom-line results.

So, when it comes to specialty chemicals, remember one company has the formula for your success. H.B. Fuller Company.

WOODWORKING

Manufacturers in the woodworking industry turn to H.B. Fuller when they need adhesives for laminating, edgebanding, cabinet and furniture assembly, flush door construction and a range of millwork operations, including finger jointing and radio frequency gluing.

PACKAGING

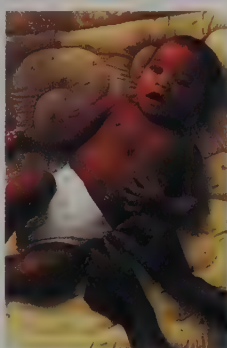

Source reduction, tightening environmental requirements and other demands are reshaping the packaging industry. And we're making the transition easy for our customers with environmentally compatible water-based adhesives, recyclable/repulable hot melts and other innovative ideas, like ADVANTRA™ high-performance packaging hot melts.

GRAPHIC ARTS

Our water-based primers speed bookbinding operations and create stronger, more flexible bonds than traditional solvent-based products. Our customers combine this new primer technology with our full line of hot melt adhesives in today's fastest, most productive bookbinding systems.

**NONWOVEN/
HYGIENIC**

Our hot melt and water-based products provide innovative solutions for the fabrication of diapers, adult incontinence devices, disposable medical products and feminine hygiene products. Plus, we offer proven expertise in equipment and application technology for fine line, slot coat, spray, screen print and other production methods.

CONVERTING

We serve the specialized needs of converters in the corrugated, towel and tissue, envelope, business form, tubewinding, laminating, bag, folding carton, tape, label and flexible packaging industries — just to name a few. We provide these manufacturers with specialized products — like our water-based film laminating adhesives — and strong technical service.

WINDOW

We've introduced several "firsts" for the window industry, including INSUL-DRI® hot melt matrix desiccant, a revolutionary technology in the manufacture of insulating glass, and the TDSE™ process, the first system that offers a true dual seal process in a single application. We're also a leader in hot melt butyl sealants and polyurethane thermal breaks utilizing a complete systems approach.

**ENGINEERED
SYSTEMS**

H.B. FULLER® adhesive systems are used to assemble mechanical parts of all sizes and shapes in the appliance, filtration, electrical/electronic industries and others. Our adhesives are used in load-bearing applications — often in place of more expensive mechanical fasteners. Bonds formed by these adhesives are often stronger than the materials they join.

DISTRIBUTOR PRODUCTS

Our Distributor Products unit offers a wide selection of adhesives for industrial manufacturing, including compounded and polyamide hot melts, pressure sensitive hot melts, waterbased adhesives, epoxy and urethane systems, and liquid moisture cure adhesives.

POLYMER

We produce polymers for use in our own adhesives, sealants and coatings — and we provide them to other manufacturers, making us a valued supplier of polymer latices. Our polymers are found in adhesives, nonwoven binders, paper coatings, caulks and sealants, mortar and grout additives, cements, paints, coatings and more.

FOAM-IN-PLACE MATERIALS

Our PURFORM® products are free-rise and molded foams for sealing, insulating, potting, gap filling, and vibration and sound dampening. Potential uses include automotive, appliance, electrical enclosure, packaging and household goods.

EFTEC North America
(800) 633-7789

Automakers look to our automotive subsidiary for adhesives, sealants and specialty coatings, such as sound deadening compounds. Applications range from bonding exterior and interior trim parts to structural, weld-replacing bonds of metal to metal and metal to plastic.

Fiber-Resin Corp.
(800) 624-9487

Our subsidiary, Fiber-Resin Corp., is a custom formulator of specialty chemicals with a focus on film adhesives, epoxy tooling resins and prepreps, high-grade thermoset systems and urethane casting compounds used primarily in the aerospace, electronic and defense industries.

Global Coatings Division
(800) 328-3758

H.B. FULLER® powder coatings provide terrific advantages over wet paint methods for the finishing industry. They produce a durable, high-quality finish. They apply quickly and easily. And, because they're virtually pollution free, they eliminate hazardous waste disposal problems posed by solvent-based paints.

Foster Products Corporation
(800) 231-9541

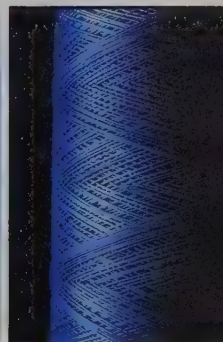

Foster Products Corporation focuses on air quality, efficiency and general safety in commercial and industrial settings for the thermal insulation industry. Available around the world, FOSTER® products include mastics, coatings, sealants, adhesives and asbestos encapsulants.

TEC Incorporated
(800) 323-7407

Our subsidiary, TEC Incorporated, makes ceramic tile adhesives, mortars and grouts, epoxy flooring, exterior insulation finish, floor covering adhesives, caulks, underlayments, patches, construction adhesives and ceramic tile care products for contractors and do-it-yourselfers around the world.

Linear Products, Inc.
(800) 426-1803

Manufacturers in the plywood, corrugated and folding carton industries count on Linear Products for hot melt-coated reinforcement tapes and strings.

Your Source For Exceptional Quality And Service
SPECIALIZING IN:

- NARROW ELASTIC WEBBING • SHOCK AND BUNGEE CORD
- EXTRUDED CRAFT LACING

Whether your particular application requires a woven, braided, or knitted construction; a cotton, polyester, rayon, nylon, or polyvinyl material; a wide assortment of colors to choose from; or, specialized services which include custom hot cutting, HNW is fully equipped to provide for your needs.

Should you require help in choosing a particular material or method of construction for your unique application, our highly trained customer service team will assist you in setting on the best and most cost effective solution for your business.

Because our manufacturing is performed on-site, as well as at our facility in Rhode Island, and because we can boast of thousands of yards of the most commonly requested items currently in stock, we are able to provide exceptional turn around time in order to meet our customers strictest scheduling demands and requirements.

Moreover, we are committed to a continuous improvement concept, the primary goal of which is to meet our customers requirements regarding quality, delivery, and service, every single time!

We welcome the opportunity to provide you with the identical quality products and services which are making HNW the preferred choice of many in such widely diverse industries and applications such as:

- Apparel • Belts • Buckle Holders • Crafts
- Festooners • Gloves • Handicrafts • Marine • Orthopedic Braces • Safety Equipment
- Shoes • Shoe Laces • Straps • Surgical Masks • Sweat Bands • Swimwear • Toys
- Waist Bands, and many, many others.

HPL STAMPINGS, Inc.
 425-T Enterprise Parkway
 Lake Zurich, Illinois 60047
800-927-0397
 Fax: 888-270-0460

We specialize in the tooling and production of limited quantities of **Short Run Stampings and Sheet Metal Fabrications.**

25 to 25,000 pieces per run

HPL is able to save as much as 85% over conventional tooling methods with our special Short Run Tooling Techniques.

The latest technologies are used in both tooling and manufacturing which results in excellent quality and exact duplication.

- CNC Wire EDM Machining
- CNC Milling Machines
- CNC Press Brakes

HPL's brand new state-of-the-art 76,500 sq. ft. facility incorporates the newest and the best equipment.

UP TO 215 TONS CAPACITY

CAPABILITIES

H & H Industrial Corp. has been a family owned & operated custom sheet metal fabricator for half a century. Our highly skilled staff, split into two shifts, enables H & H to offer the finest quality & fastest turnaround in the industry. Our standard line of cabinets, racks, consoles & accessories allows H & H to offer customers multiple options to satisfy a wide variety of metal work needs within 48 hours. Special order cabinets & accessories can be designed & shipped within 3 weeks.

PRODUCTS & SERVICES

- Custom Sheet Metal Fabrication
- Standard Line of Electronic Cabinets
- EIA, NEMA, EMI/RFI Seismic Zone 4 Standards Maintained

SPECIAL CAPABILITIES

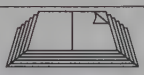

- State-of-the-art Fabricating and Painting
- From Prototype to Large Volume Production
- Meets Military Spec & ISO 9002
- Full Inside Sales Staff
- Design Assistance
- Family Owned and Operated Since 1950
- Member of FMA & SME

CORPORATE OFFICERS

Gertrude Hajduk – President & CEO
 Maryann Hajduk – VP/COO Walter J. Hajduk III – VP/Gen. Mgr.

HYDRAULIC TOOLS

FABRI-TECH, INC.
CUSTOM FABRICATIONS
A subsidiary of Hader Industries

Hader Industries has provided the industry with private label and OEM products for four decades. Hader will continue to meet the need for higher quality, high-pressure hydraulic tools and hydraulic cylinders and CUSTOMER METAL FABRICATIONS, through innovation and advanced technology.

Our modern facilities have state-of-the-art computerized machines and use the latest quality control techniques.

Since we machine, fabricate, assemble and test all hydraulic components at this facility, we can respond quickly to the special needs of the industry.

The Hader team of dedicated people are anxious to meet your every demanding need and specification... call us today!

**The HALL
CHEMICAL
COMPANY**

Manufacturer of Cobalt, Nickel & Manganese Salts

COBALT PRODUCTS

Cobalt Acetate, Cobalt Carbonate, Cobalt Chloride,
Cobalt Hydroxide, Cobalt Nitrate, Cobalt Oxide,
Cobalt Sulfate, Cobalt Sulfate Monohydrate

NICKEL PRODUCTS

Nickel Acetate, Nickel Carbonate,
Nickel Hydroxide, Nickel Nitrate, Nickel Oxide,
Nickel Phosphate, Nickel Sulfate

MANGANESE PRODUCTS

Manganese Acetate, Manganese Chloride,
Manganese Nitrate

OTHER PRODUCTS

Cadmium Nitrate, Cobalt/Manganese Oxide,
Cobalt Mixed Metal Oxide, Iron (Ferric) Nitrate,
Zinc Nitrate

Hamilton Company

Your source for precision fluid measuring components and systems for more than 40 years.

- Precision glass syringes - Non-medical glass syringes - 0.1 to 100 mL
- Compact syringe pumps - Volumetric - 130 µL to 30 mL
- Inert plug valves - 0.040" to 0.050" to 1.125" port sizes - optional fluid flow
- Valve positioning - Versatile communications (RS-232, TTL)
- Electrochemical Sensors - pH and conductivity sensors

Full range of instrumentation for fluid measurement, syringe pumps

The Electronic Materials Group activities encompass precision stamping, plating, and molding for electronic and electrical components. As part of a global system of companies, the group is an international leader in precious metal finishes and innovative specialty metal products and services.

From initial design and R & D, through product application and follow-up services, The Electronic Materials Group is dedicated to integrity and quality.

Electronic Materials Corporation

The Electronic Materials Corp. is an integrated source for tight tolerance electroplating and precision stamping for the electronics, semi-conductor, telecommunications, and automotive industries. It provides its customers with significant cost advantages using unique conforming mask technology on formed metal parts. Thus achieving the highest levels of precious metal selectivity in the industry.

Hanel-Rotomat Industrial Vertical Storage Carousels:

**Storage capacity,
ergonomics,
and productivity
are redefined!**

Hanel is a worldwide quality and performance leader in system solutions for material handling storage and inventory control systems

Hanel Rotomat Industrial vertical carousels work on the principle of rotating shelves. Items are brought to the operator at optimum work height, eliminating walking, stooping, bending etc. By making use of the available ceiling height, you save tremendous amounts of floor space.

Convincing features:

- floor space savings of 50% or more
- increased worker productivity
- improved ergonomics
- increased inventory control, accuracy and security
- flexible shelf spacing that can be changed without tools
- Windows based inventory control software with TCP/IP interface

HANSEN

THE BEST THING GOING

Hansen's precision motors have a reputation for efficient and productive service . . . even under the most demanding conditions.

Synchronous Motors. Hansen is a leader in synchronous motor technology and proudly supplies millions of synchronous motors annually for variety of applications.

DC Motors. High performance, long life and reasonable costs are characteristic of Hansen's DC motors, ideally suited for a number of applications.

Stepper Motors. Generate precision motion control with a Hansen stepper motor. A wide range of sizes (from 14 through 28) are utilized by our customers in the computer, office machine, medical equipment and automotive industries.

Hansen's built-in quality and on-time delivery are supported by our customer service.

We will work with you to custom design the motor for your specific needs and match your application with the correct power source.

Tomorrow's ideas for today's technology . . . that's what Hansen is all about. Our motors are simply the best things going.

HARGER®
LIGHTNING PROTECTION, INC.

LIGHTNING PROTECTION EQUIPMENT

Since 1960, Harger has been providing quality products and services. Harger's unique approach utilizes total systems integration to ensure you are completely protected from the devastating effects of lightning.

GROUNDING EQUIPMENT

Harger offers a complete array of specialized grounding material such as ground bars, enhanced ground rods, connectors, conductors, etc. as well as custom designed components that fulfill even the most unique applications.

ENGINEERING SERVICES

Harger offers a variety of services ranging from systems design and product development to field inspection and ground testing. Please contact Harger for more details.

WE'RE MAKING THE WORLD A COOLER PLACE.

Hayden Heat Exchangers with Variable Passage System Smart™

Externally-plumbed heat exchangers can make your world seem as if it revolves around costly flow-restriction problems. That's why we developed **Variable Passage System Smart™**. This unique patented system automatically adjusts internal passage size rather than bypassing the heat exchanger core. It controls pressure drop changes during cold-starts. Self-modulates temperature. Lets pressure spikes pass with ease. And it eliminates external leak points as well as the cost of additional plumbing, parts, and labor.

The Variable Passage System Smart™ feature is available in our **Swift Cool™** and **Temp-Troller™** heat exchangers. You'll also find our heat exchangers provide up to 550% greater heat transfer efficiency than bare tube heat exchangers, because of our patented aluminum **Inner Swift™ Turbulator**. Our wide range of standard options ensures a Hayden heat exchanger will fit your unique size and application requirements. Now that's a world of difference.

Make your world a cooler place. Call (800) HOT-4-COLD today for a FREE engineering analysis of your specific application.

HEDRICH

vacuum systems

Engineers and manufacturers of custom and standard vacuum equipment.

- Vacuum Meter/Mix/Dispense equipment for production of electrical coils & transformers.
- Resin vacuum casting equipment for molded electrical parts using the Automatic Pressure Gelation Process.
- Vogel Clamping Presses & Custom Molds
- Drying & Impregnation equipment for the electrical industry.
- Vapor-Phase drying plants for power transformers.
- Degassing & oil purification equipment.

Specialists in Engineered P/M Components

For more than 25 years, Helsel has experienced dynamic growth by applying powder metal technology to provide innovative, cost-effective solutions to industry's most difficult component design and manufacturing problems.

Represented by a talented and dedicated group of engineers and craftsmen, Helsel has established its reputation for reliability, integrity and close personal attention to customer requirements.

We utilize leading-edge computerized modeling technology with CAD part and tool design. CNC machining and grinding capabilities are state of the art for secondary oper-

ations. Our associates have the tools, knowledge, experience and desire to solve your most challenging component requirements. From your initial inquiry through design, samples and on-time delivery, we will exceed your expectations.

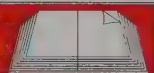

Please call or write. We appreciate the opportunity to assist you!

Cryogenic & Industrial Gas Equipment

AN INTERNATIONAL INDUSTRIAL SUPPLIER

■ High Pressure Gas Compressors

Specially designed for industrial gas usage supporting He, H₂, N₂, Air, Neon, Argon, Freon, SF₆, Natural Gas

■ Air Separation Plants

Sizes range from 1.5 to 400 tons per day

■ Cryogenic Plant Equipment Relocation Specialists

Dismantlement, modernization, installation

■ Sulzer Compressors

Rebuilt compressors available
Authorized Sulzer service center

The world's best paints rest easy on us.

Henkel Surface Technologies

Henkel Surface Technologies has been the base for the world's leading paint companies for more than 80 years. In fact, more paint is applied over our iron and zinc phosphate, chrome and non-chrome processes, than all other producers of prepaint treatments. We've consistently been the leader in working with major paint companies in developing new pretreatment specific to each new advance, from high solids to waterborne to powder coatings.

Today, HST offers even more value to the suppliers we support. Our expanded product lines and global services together with your paint supplier can offer you a total finishing line capability that produces fewer sourcing worries and more value.

Let us show you how we can provide a quality foundation for your product. Or better yet, ask us to work with your paint supplier to design the right pretreatment and finishing system for a job that's built to last.

The Most Comprehensive Seal & Seal Kit Inventory in America

HERCULES DELIVERS

- Inch & Metric Sized Seals & Kits
- Kits for over 200 Equipment Brands
- Over 35,000 Line Items
- Extensive Annual Product Catalog
- 95% of Orders Shipped the Same Day
- Reduced Overnight Freight Rates
- Technical Engineering & Sales Staff

Hercules Hydraulics, Inc. is an ISO 9001 registered distributor of hydraulic and pneumatic seals, seal kits and components for mobile and industrial applications. Hercules provides seal products used in hydraulic and pneumatic cylinders to a variety of industries for equipment such as: dump and refuse trucks, construction equipment, material handling equipment, industrial plant applications, farm equipment, and logging equipment. Industry leading technical catalogs provide application, dimensional and material specifications, and prices for products. A technical sales force, special freight rates, and an Engineering Department will provide you with unparalleled service. Hercules also stocks component parts such as cylinders, pumps, motors, valves, gauges, and flow controls. Our business is to help your business.

HETRAN

Worldwide Engineers and Manufacturers

"Quality Machines Built for Performance and Service"

- Advanced technology bar and coil processing cells
- Bar-to-bar turning (peeling) machines for bar and tube
- 750 ton straightening press
- Bar straightening/burnishing machines
- Coil-to-coil/coil-to-bar shaving (peeling) machines
- Die shaving (Broaching machines)
- Planetary belt polishing machines for rod, wire, bar and tube
- Material handling equipment
- State-of-the-art data collection systems (SPC, CPK, etc.)
- Leading edge technology carbide inserts, abrasives and other ancillary items
- Abrasive cut-off saws

ROD & WIRE (PEELING) MACHINE

Custom Fabricator of Precision Rubber Components & Assemblies for OEM Manufacturers

Hiawatha Rubber Co. is a leader in the supplying and manufacturing of precise and functionally critical rubber assemblies and molded components. The great demand for reliable, high performance rubber parts at a minimum cost is a challenge Hiawatha Rubber has been meeting since 1955.

What makes us different is our diversification. We can tackle any job and produce the highest quality part for your product. Our lab technicians have the ability to work with all commercially available polymers, enabling us to choose the exact raw material for your rubber needs. Our high-tech computerized machinery forms and bonds the rubber with precision.

High Voltage Capacitors: Ceramic and Oil Filled

Since the company's founding in 1962, we at High Energy corporation have been devoted, above all, to meeting the need of our customers with the best in high voltage capacitors. Over the years, we have successfully engineered, manufactured, and marketed a great variety of ceramic and oil filled capacitors for many different applications. We are especially proud of our ability to create custom solutions for totally unique applications.

Hilti Nationwide Sales and Service

**"Helping
Your Hilti
Salesperson
Serve You
Better!"**

Toll-Free Phone Number- 1-800-879-8000

Only one phone number to reach Hilti from anywhere in the United States.

Contact Local Hilti Salesperson

Coordinate product demos, jobsite/facilities sales and service calls.

Salesperson receives messages quickly and accurately.

Immediate Access to Customer Account

To place an order for:

- Pick-up at local HILTI Center
- Delivery to Jobsite or Office
- Price quotes

Check product availability locally or nationwide

Check on status of orders

Verify pricing on orders

Check tool repair status

Trained, Professional Customer Service Representatives

Available to answer product and application questions.

Customer Service Representatives are "an extension" of the salesperson when customer requires immediate input on problems, applications or other needs.

Customer often does not have to wait for a salesperson to call back.

Technical Support Specialists

Provide technical information for special application problems.

Customer Service Representatives Assigned By Region

Representatives familiar with local market conditions.

Customers speak with the same small group of Customer Service Representatives who are familiar with their accounts.

Toll Free Fax Machine 1-800-879-7000

Convenient for price quotes, technical reports, and new account information.

Convenient Hours of Operation

6:00 am to 8:00 pm CST

Mastercard/Visa

Credit card orders placed immediately.

Hilti Center to Serve Walk-in Customers

More time available to demonstrate products, answer technical questions.

Call Customer Service

HITACHI METALS AMERICA, LTD.

a world wide leader in innovative metal products

supplies a vast variety of raw and semi-finished products of only the highest quality. Has over 15 domestic and overseas plants along with local sales offices to support and service the customer split into four separate divisions to provide better service. The headquarters is located in Purchase, New York.

The divisions are:

Casting Products Division (CPD)

Aluminum Wheels

Aluminum & Ductile Iron Castings (for the Automotive Industry)

1-800-333-1514

Electronic Materials Division (EMD)

Mass Flow Controllers & Metal Diaphragm Valves

1-800-780-8038

Magnetic Materials Division (MMD)

Toner for Photocopiers

1-800-944-0149

Materials Trading Division (MTD)

SPECIALTY STEEL GROUP

1-800-944-0145

High end grades of: Stainless, Alloy Tool and High Speed Steel

High Nickel Lead Frame Material & Glass Sealing Wire

Fe-Ni Magnetic Material

Target Material (Sputtering Targets)

Magneto Resistive Sensors (MR Sensors)

ROLL GROUP

1-724-864-7350

Mill Rolls: Cast Iron, Cast Steel, Forged Steel

Bi-Metallic Cylinders & Screws for Injection Molding

Sialon Ceramics: Sleeves, Ladles, Crucibles, Pump Parts

RF & FERRITE GROUP

Ferrite Cores

Microwave Products

ISDN Transformers & Chip Inductors

1-800-944-0148

hitemco himed

For more than 20 years **hitemco** engineered coatings and compounds have served critical roles in adding surface protection and structural integrity to a wide range of products, **customized** to meet demanding applications and specifications worldwide. Each of our facilities offer comprehensive R&D/testing labs and both conventional or clean room-rated application programs for your product. For abrasion, corrosion, thermal, biomedical, oxidation, conductivity or EMI/RFI shielding problems, **hitemco** has the answers.

hitemco EAST – Applicators of engineered coatings to enhance wear, corrosion, thermal, electrical, and high temperature oxidation resistance. Completely automated thermal spray cells, pack diffusion aluminides, silicides, chromides and fused silicides.

hitemco SOUTHWEST – Applicators of fluropolymers and composite fluropolymers, including thick film coatings. Ability to process parts up to 40 ft. long. Dry film lubricants and phosphate conversion coatings. Robotic thermal spray including HVOF.

himed – Thermal spray hydroxylapatite and calcium phosphate materials for medical, dental & pharmaceutical applications, cobalt chrome and titanium coatings, diffusion bonding of special metal coatings for implants; apatitic abrasives.

hitemco EAST – himed

Hobson FILTERS CORPORATION

HOBSON FILTERS has been a leader
in custom-designed filtration systems
for over 35 years.

Russ Hobson invented and patented
the unique Hobson flexible tube for use
in his FLEX-TUBE™ Systems. These
systems provide self-cleaning, regener-
ative filtration for total separation of
particulate matter (**down to 0.5 micron**)
from non-viscous liquids.

Improvements over the years include
the split-inlet design and the introduction
of recyclable NU-FLEX® tubes and now
the new STRETCH-FLEX® Tubes.

Route 3, Box 85
Old Fort, NC 28762
800-HOB-FILT
(800-462-3458)

**Hobson offers a 25% discount
on replacement tubes
with return of used tubes**

Technology • Quality • Service

Your Single Source for Quality Metal Products

Castings

- Gray, Ductile, and Alloy
- 1-3000 lb. capacity
- Prototype to Medium Runs
- CNC Machining
- Excellent Quality

Fabrications

- Structural & Industrial
- Mild Steel
- Stainless Steel
- Aluminum
- CAD Engineering

*Offering complete design and manufacturing
services for custom metal products.*

High Quality, Heavy Duty Alternatives for Smaller Capacity Blast Rooms

- Pitted design requires no special foundation
- Easy to retrofit to existing facility
- One motor powers the reclaim floor
- OSHA approved, safe for people and the environment
- Works with most types of dry abrasive materials
- Designed for easy assembly & disassembly
- Uses both air-wash separator & perforated plate rotary drum

The ECO Abrasive Reclaim System

All of the high standards of our larger systems are built into this rugged equipment for smaller applications.
